

1st Digital Session of the EYP 2020

We are looking for EYP Pioneers!

The EYP network is faced with grand challenges in 2020. Challenges call for innovation, and innovation leads to progress. Do you want to be part of the progress in EYP? Are you ready to take the classic EYP format into the digital age? Do you want to go where no EYPer has gone—yet?

What is the 1st Digital EYP Session?

In light of the latest developments in global public health, many EYP sessions this spring have been postponed. Young people across Europe and around the world are at home, eagerly waiting for the next opportunity to attend an EYP session. We want to provide them with a ground-breaking opportunity to attend their next session, in an unprecedented format. The 1st Digital Session of the EYP will gather participants from across Europe who will go through the traditional Teambuilding, Committee Work, and General Assembly (and lots of fun social activities!) in a *fully digital, online environment*.

The Digital Session will have young people from all corners of Europe digitally coming together in between **16th -19th of April** to create an innovative, educational experience – creating a safe but wonderful opportunity to encounter European diversity and meet new friends – all in spite of the challenges posed by the current pandemic! Be a participant of this first unique session!

Why should you apply?

- If your session was postponed or cancelled, this will be a fantastic opportunity for you to do EYP from home in an experimental format
- You will be talking to and connecting with EYPers across the continent
- By participating and giving feedback, you will help push forward and innovate the EYP network in an increasingly digital age, as well as in the age of climate change
- Your experience and feedback will pave the way for the establishment (and transmission) of best practices that we hope can be duplicated by other teams, across the network, in the next few months

Who can apply as a Delegate?

- EYPers who are excited about participating in sessions, regardless of their format

- No prior EYP experience is required to join this session
- Those who want to explore the possibilities of digital tools in times of social distancing
- Anyone who wants to take part in the migration of classic session academics to the digital world
- Everyone who is available to take part in the session for 4 days (16-19 April) and can provide feedback afterwards!

Key facts

- Dates: 16th – 19th of April
- Location: online everywhere
- It will take place via digital platform(s), such as Zoom video conferencing and other web-based tools. You should have a stable internet connection ideally with a camera installed.

If you want to participate in this innovative event, please apply through Member Platform via this link <https://www.members.eyp.org/node/159499/apply/delegate> by **5th of April (23:59 CET), 2020**:

If you have any questions, feel free to send a message to Christopher Nölte (HO): christopher.noelte@eyp.de or [fb.com/cnoelte](https://www.facebook.com/cnoelte)
