The Event

OUTLOOK OF THE EVENT

After the successful efforts put in place to create and hold its first ever digital session - **Digitaly** - EYP Italy is proud to present a **National Training**, happening on the **27th and 28th of February**. Given the pandemic emergency the event will take place **online** on Zoom.

The training will be an opportunity for both older and newer members of EYP Italy to start exploring the **official roles**, with a particular focus on **digital session roles**.

The event will be organised by EYP Italy's Board Events Team, composed of Riccardo Rastello, Adriano Coppa and Enrico Zonta.

TRAINERS

As its main focus will be drawn on **digital session roles**, the event is thought as a natural continuation of Digitaly. Therefore, the training will include modules provided by the **leadership of Italy's first digital event**, namely Oisin McGinley and Kirsten Young as Presidents Anouck Guillot and Beka Gvaramia as Editors and Enrico Zonta as Head Organiser, as well as **senior members** of both EYP Italy and the international network, such as Ludovica Formicola, current member of the EYP Governing Body.

THE TRAINING

The training will be organised in two days. On the first day, **Saturday 27th** of February, participants will participate in different modules aimed at giving a more general look at **how a session works** and the efforts behind it (held by Riccardo Rastello, Adriano Coppa and Enrico Zonta), a guide on how to write a

successful application (held by Anouck Guillot) and an overview of **EYP's International network** (held by Ludovica Formicola, member of the Governing Body of EYP).

The second day, **Sunday 28th of February**, will be dedicated to a more **specific and profound analysis of the different roles of a session**.

Trainees will be able to choose between modules on the **organising** team (with Enrico Zonta and members of his Digitaly team), on the **academic** team (with Oisin McGinley and Kirsten Young and members of their Digitaly team) or on the **media** team (with Anouck Guillot and Beka Gvaramia and members of their Digitaly team). Each module will include both a general explanation of the role and a more specific focus on its **digital side**.

At the end of the modules, participants will then virtually gather together and take part in a more **informal moment**, where the panelist will be available for questions.

The Schedule

SATURDAY 27th of FEBRUARY

15:00-15:30

Welcome

15:30-16:30

The engine of a session - by Riccardo Rastello, Adriano Coppa and Enrico Zonta
