The Head Organiser's

Vision

A single session, endless possibilities. EYP is the key that opens many doors, in order to find out which one hides your success you need to open them all!

Dear friends! It is our great honour to be able to announce the 6th National Selection Conference of EYP Slovenia in our beautiful capital Ljubljana, the heart of the small, yet beautiful and diverse country of Slovenia. Built around the medieval castle and with its unique old town centre, beautiful parks and its own river named after it, the winner of the European green capital award of 2016 could be easily mistaken for a town from fantasy books... But it is very real. As the title suggests, the session and the city itself will offer you a myriad of remarkable places to explore, people to meet and unique topics to discuss.

Self-development

As head organisers, we would like to emphasise the self-development and further involvement of both our delegates and officials. We would strive to provide a space where everyone can feel comfortable to explore and try new things, no matter your role.

A Tailored Experience

While we are aware that people have different and specific fields of interest and potential, we would like to ensure that we tailor the many different activities to all of our participants and in doing so also giving them the option to develop in their personal field of interest. This can only be achieved through a dynamic session.

Representing a Wider EYP Perspective

We noticed that in EYP participants, both delegates and officials, tend to get stuck in what the obligations of their specific role are. We would like to focus on breaking down the barriers between roles to show a wider EYP perspective. This would include a more relaxed atmosphere between delegates and officials. We would invite members of all teams to consider how they could depict what their role is all about to other participants.

Getting to Know Ljubljana

Besides trying to unlock attendees' potential, we would also like to make the best use of the city itself. Visiting remarkable places during the city tour, usage of the green park for teambuilding, eating in the most interesting restaurants in Ljubljana and many other surprises will provide an unique experience for every attendee. Our mission here is to present a picture of Ljubljana that no one will ever be able to forget.

Final Words

In order to make the session as successful as intended, your help would be strongly appreciated, because we believe that every individual contributes to the session in his own way, which builds the diversity of the session and makes it special.

Sincerely,
Marco Jacoangeli and
Luka Stanković
Head Organisers of Ljubljana
