### **Flowing beyond charted territory**

Ljubljana 2021 will be the first International Session in Slovenia. It will not only mark an important milestone in the history of EYP Slovenia, but also present one of the biggest international youth events during Slovenia's Presidency of the Council of the European Union in 2021. With the support of Municipality of Ljubljana, we will make sure the session is closely connected to the city and takes advantage of everything our beautiful capital has to offer. Ljubljana 2021 will also be the first time in 10 years that an International Session takes place in the Western Balkan region.

### **Flowing beyond convention**

From the very beginning the organising team of Ljubljana 2021 has been putting great emphasis on following a clear "Why system". Each decision we make has to be supported by clear reasoning and understanding of everybody's needs and a common vision of the situation. We want every official to have the room to innovate and experiment outside of the usual bonds of an International Session, but we wish to extend our dedication to asking our team members as well as ourselves why we are doing something before making the step from idea to realisation. That way, every decision we make is purposeful and well-thought out, enabling every participant to have a meaningful and enriching experience at the session.

### **Flowing beyond limits**

Another aspect we will concentrate on is flowing beyond our own limits and creating space for personal growth of every participant during the session. One of the vital goals of the project is giving everyone an opportunity to grow as an individual as well as to feel ownership and realise its importance. We believe that Ljubljana 2021 will create an environment where everyone can challenge themselves and successfully overcome difficulties by taking a step out of their comfort zones they are used to.

Our session will be structured in such a way that traditional barriers between different teams are deliberately blurred. We aim to create an inclusive, supportive and priority-based environment with every participant's wellbeing at the core of our priorities. We are looking for people who wish to be a part of a tight community, helping us build a space where everyone feels empowered and encouraged to voice their opinions regardless of their role at the session and actively contributing to making this project a unique and unforgettable experience.
