SELECTION CONFERENCE**

VISION BOOKLET

**EUROPEAN YOUTH PARLIAMENT
SHQIPËRIA ALBANIA**

HEAD ORGANISER

Dear applicant,

I would like to welcome you to read my vision for the 3rd Digital Regional Session of EYP Albania. Being an integral part of our personal development journey and of our society, change is the actor that sets the wheels in motion and henceforth it is detrimental for a society and its individuals to advance. Having said that, this session slogan will act as a firm but yet gentle reminder that as individuals of a modern society we never have to settle for something. The possibilities are endless and only through the flexibility of change can we achieve success. As a generation of this day and age it is our onus to do so.

I am looking for a team of bright minded individuals who want to work in a team-oriented environment and are capable of solving problems fast. The team will be composed of unique characters who like to have fun and know how to keep a positive attitude. This session will give all members space to realize their true potential and allow them to go beyond their limitations. Lastly, I would like to focus on flattening the gap between Head Organiser and Organisers by having a multilayered structure within the team and on creating a safe, including and engaging environment by fostering interaction between inter and intra teams.

Isidora Popaj

PRESIDENT

Dear applicant,

Substantially thrilled and excited to preside the 3rd Digital Regional Session of EYP Albania let me immediately guide you through my vision for the academic team. As you all know we're living in difficult times nowadays, which naturally has driven us to adapt to this new environment far better than a chameleon does. All the stories of mankind might be called differently even the story of the champions of adaptation. This ability has accompanied our race through time to this day by becoming better individuals. Through the embracement of every possible turn of unexpected life events, we have shaped ourselves as successful members of a society of free people, prone to surpass any expectation.

I am eagerly anticipating a broad welcome to my team of 8 responsible citizens ready to join our way towards the end of an era of digital sessions. I want these youngsters to promote sustainability in every aspect of their lives while paying it forward to our new alumni. I strongly invite you to relive the highlight of your last EYP experience and try your best to better the upcoming ones. Only by working as a team, we will create a friendly environment for the other officials and our dearest delegates.

Era Selmani

Dear applicant,

In my vision for the session, I want to focus on three things: the before, the during and the after.

Before

A well united team is the best possible team. I want to put a lot of emphasis on team building and uniting the Media Team even before the session starts. The more trust, honesty and unity the team has, the better we can work together and the better the media outcome will be. With this in mind, I want to ensure each member feels included, welcomed and part of a safe space that allows them to grow and develop during the session and after.

During

During the session, I want to focus on learning from our past experiences and finding ways to break the status quo. I want to put a lot of emphasis on knowledge sharing, working truly as a team and the teams' wellbeing. I want to encourage the team to work together on their projects, share their knowledge and expertise with others, even outside the typical training modules. Furthermore, I want to ensure that all members take care of themselves during the session. By implementing working hours for the team, we can ensure that each one of us is well-rested and taking care of ourselves.

After

Whether this will be your first experience in a Media Team or your 20th, there is always something to be gained from a session, let that be a technical or a personal skill or something completely different. I believe that with these concepts in mind, what you take from the session, whether that is new knowledge or new friends, will stick with you throughout your journey both in and outside EYP.
